APPAREL DESIGN BD (BUYING HOUSE)

Apparel Design BD. The Sourcing Company of Bangladesh.

- ✘ We take great pleasure in introducing our company Apparel Design BD as one of the sourcing Agency of Bangladesh. Apparel Design BD has the capability of providing a bridge between our overseas customer/importers and local manufacturers in Bangladesh to ensure premium service during sourcing of new products, development cycles, timely deliveries and adherence to international standards quality. Our office location in Uttara, Dhaka, Bangladesh. which is the hub of all the garments business activities of Bangladesh. We provide sourcing / buying services for after legally incorporating on January 2013.
- ✘ Apparels, Brand Manufacturers and wholesalers throughout the world who are looking for Offshore Production of sourcing of Apparels both Knit, sweater and Woven, Accessories and etc. as per their design and specifications. We would welcome you or your staff members to visit us in Dhaka and see first-hand the strengths and scope of our organization.

MISSION AND VISION

We are focused on our core activity: Textiles / Clothing, Global solution provider: Vertical integration and multi-product for expansion and strategic alliances.

Our Mission :

Our mission is to be the market leader, in providing clothing from Bangladesh to our customers around the globe. To be a market leader we are committed to develop high quality, sophisticated and deviation-free products in our capacity and make on time delivery to our customers

Our Vision:

We stand behind our garments products with quality assurance. we believe quality is never an accident. It is always the result of high intention, sincere effort, intelligent direction and skilful execution to provide customers with the most comprehensive sourcing, production, design & product development service, guarantee of quality, competitive price & quick turnaround times with a world class professional personalized service.

COMPANY CULTURE

The focus at Apparel Design BD is pretty simple and straightforward: customers, creativity, doing what's right, and delivering results. Together, we call it "wearing your passion." And it's the perfect match for the kind of people we attract — as both employees and customers.

Think: customer first

We make decisions with our customers in mind. We connect with our stores and create the quality our customers' value and expect.

Inspire: creativity

We think big, take risks and solve problems. We challenge the status quo and always look for new ideas and ways of working.

Do: what's right?

We believe that how we do business is as important as what we do. We act with integrity, and we give back to the communities in which we do business.

Deliver: result

We deliver the best result possible – we're committed to taking responsibility, setting priorities and meeting our goals.

WORKING PROCEDURE OF APPAREL DESIGN BD

- ✘ First of all marketing merchandiser contact with a buyer and collect an order by showing the garments they made before or directly ask which type of garments buyer need.
- ✘ Then we find out the suitable factory for that specified garments. The factory must be audited by recognized organization like OEKO-TEX, WRAP, BSCI, SEDEX etc. (Depends on Buyer).
- ✘ Do consumption & costing and bargaining with factory for cost for the specific product. Finalize cost and send it to buyer.
- ✘ Then development merchandiser develops the product send 1st pattern for any correction.
- ✘ Usually buyer makes some modification on 1st pattern, so 2nd pattern is submitted according to 1st pattern comments.
- ✘ Then fit sample is made and QC (Quality Controller) check is it follows the approved 2nd pattern.
- ✘ Then production merchandiser starts his work.
- ✘ Production merchandiser basically follows up the total production stage. After getting approval of red seal sample he has to book the fabric and trims.
- ✘ He has to Follow up the fabric and trim arrived in factory in time or not. After all approval he does production planning meeting with factory.
- ✘ QC has to follow the production is running with approved item, fabric and accessories or not. He helps production merchandiser by giving all production information.
- ✘ QC's main task is to check all samples (red seal, gold seal, web sample etc) sent to buyer, and help factory people if there any confusion with production.
- ✘ Fabric, trims accessories are checked in lab in JK Sourcing. It's called in-house test like Bulk fabric hanger, shade variation in shade continuity, lab dip, fabric quality etc.
- ✘ Different types of inspection also done in lab before ex-factory/shipment.
- ✘ After doing ex-factory showing packing list and some commercial activities by commercial departments .

QUALITY ASSUARANCE

- ✘ We believe in maintaining systems and control measures from yarn-weaving-fabric stages in accordance to AQL 2.5 system to deliver flawless garments. Our quality assurance personnel stationed at all manufacturing sites ensure that all production are geared to run on AQL 2.5 thereby eliminating the last minute rejection factor giving you value for your money.
- ✘ Entire quality management team comprises of expatriate textile professionals with many years of experience in quality control and assurance behind them. Every customer order is subjected to a thorough, organized quality process with strict controls at every stage of production.
- ✘ Apparel Design BD unique system of testing fabrics & garments at all stages in its in-house fully equipped systems ensures that any potential quality issues are identified well before shipment dates & any such faults rectified well in time.
Tests such as dimensional stability, color matching (spectrophotometer), color fastness, light fastness, pilling, fastness to perspiration, fabric & garment performance, composition and fabric structure analysis are undertaken for every batch of fabric before cutting. vigorous garment, accessory & embellishment testing is also conducted including any customer special tests all testing methods confirm to ISO, BSEN, & AATCC.
- ✘ Apparel Design BD ensures extensive quality control monitoring & control systems right from the raw materials, sample development, pre-production, pattern designing, cutting , thermo fixing, motifs, dressmaking, ironing and finishing, bulk production to product packing, meeting and surpassing the required quality standards of customers.
- ✘ Apparel Design BD quality control assurance team consists of specially selected qualified pro-active and result oriented people, who believe in finding solutions. each factory is also carefully evaluated before placing orders to ensure proper compliance to ethical standards.
